Hi Everyone,

Thank you for responding to the doodle poll. As expected, there isn't one date/time combination that worked for everyone. The date and time on this invite worked for at least two members of each agency and I thought we should reserve it on our calendars.

The purpose of our meeting is to discuss the update of the State Water Board's Water Quality Control Plan for the Delta and determine if there is interest in providing the State Board some well developed concepts/ideas for updating specific water quality standards including Delta outflow objectives, export/inflow objectives, and potential new reverse flow objectives for Old and Middle River.

I'll send out a more specific agenda as the meeting nears.

Erin
